# Nuclear Power

Ireland's power sector could generate **18%** of electricity from nuclear **by 2037**, with the remainder being supplied predominantly by renewable energy

Ireland's fastest cheapest guaranteed route to Net Zero

## THIS IRISH NUCLEAR INDUSTRY WOULD:

■ Reduce annual carbon emissions from

**5 M Tonnes**

In 2030 to

**0.9 M Tonnes**

In 2037

2030

2037

**Use 99% less land**

Than a system without nuclear
